

## New Decorative Bollard Sleeves — Where Safety Meets Style

Transform ordinary security posts into standout design features with our next-generation decorative bollard sleeves. Engineered for durability and crafted for visual impact, these sleeves instantly elevate any streetscape, storefront, or public space—without the cost or hassle of installing new bollards.

### Key Features

- **Premium Architectural Aesthetics**  
Available in a new modern design, our sleeves bring a refined, cohesive look to your site
- **Built Tough for Real-World Conditions**  
Constructed from high-performance, UV-stabilised PE, they resist fading, cracking, corrosion, and weathering. Perfect for high-traffic areas.
- **Effortless Installation & Maintenance**  
Designed to slide over existing steel or concrete bollards and secured with our high tack foam tape, the sleeves install in minutes with no construction downtime.
- **Customizable for Any Project**  
White or new black reflective strips available. Available in a range of colours and stone finishes.
- **Cost-Effective Enhancement**  
Achieve the appeal of permanent architectural bollards at a fraction of the cost. Ideal for renovations, new developments, and long-term placemaking upgrades. Secured with high tack foam tape.

- **Technical Specifications:**
- Max height 1200mm – can be cut to fit
